* Average of two long term issues for each country.

† Differing coupon rates and maturity provisions, and the fact that the U. S. Treasury issues are exempt from "normal" income tax, vitiate any direct comparison of absolute yield levels.

(1) United Kingdom issues are quoted in London to include accrued interest but are given here excluding interest.

(2) On (or nearest to) 15th of each month. (3) 9 months. (4) 120 days. (5) 96 days. (6) Average Jan. 1 - 25 for Bond Prices & Yields.

(1) Treasury Bills are excluded. (2) Figures for the gross amount of bonds outstanding are compiled from latest official sources adjusted to 31st December, 1938, by subsequent known issues and redemptions; when full details regarding these become available minor revisions may be necessary. (3) Including issues payable in Canada or London, one issue payable in London or New York, and one issue payable in London or Paris. (4) Figures for guaranteed issues are only approximate since complete particulars are not in all cases available. (5) The \$33.3 mm. of School Land Debenture Stock issued by the Dominion and held by Provinces is excluded. (6) C.N.R. issues guaranteed by the provinces, being included under the C.N.R. heading, are excluded from provincial headings.

DOMINION DIRECT AND GUARANTEED BONDS* MATURITY DISTRIBUTION

*Gross Amount outstanding; School Land Debenture Stock and Treasury Bills are excluded.

* (1), (2) and (4)—See corresponding notes on opposite page. (3) C.N.R. bonds guaranteed by provinces are treated under the heading "Other C.N.R." (5) Three months Bills, payable in Canada only. (6) It was impossible to classify issues of municipalities and religious institutions totalling \$4.1 mm. in 1936, \$2.5 mm. in 1937 and \$3.7 mm. in 1938 between new and refunding. In each quarter such issues have been arbitrarily allocated in the same proportions as the known issues in the quarter. Because of lack of sufficient data no tabulation of retirements by municipalities and religious institutions was possible. (7) Includes \$48 mm. of C.P.R. bonds issued to refund Dominion guaranteed bank loans. \$12 mm. was delivered in the first quarter and \$36 mm. in the second quarter of 1936. (8) Total outstanding as at 31st of December, 1935, including \$2.7 mm. payable in New York.

* The \$40 mm. Dominion issue due in New York on 1st Jan., 1939, which was refunded in New York in November, 1938, is for the purposes of this table taken as maturing in the last quarter of 1938. † Only or optionally. (1) Subject to revision. (2) Treasury Bills are excluded. For particulars of Dominion Treasury Bills see Heading IV, page 23. (3) Issues of municipalities and religious institutions are not included in this tabulation owing to lack of sufficient information. (4) Includes retirements through sinking fund purchases. In many cases available data did not permit more than arbitrary approximations for separate portions of the fiscal year. (5) Including issues payable optionally in Canada or London. (6) Issues are included at the price to the public. Retirements are included at the redemption price.

* Average of two long term issues for each country. † Differing coupon rates and maturity provisions, and the fact that the U. S. Treasury issues are exempt from "normal" income tax, vitiate any direct comparison of absolute yield levels. (1) United Kingdom issues are quoted in London to include accrued interest but are given here excluding interest. (2) On (or nearest to) 15th of each month. (3) 9 months. (4) Average Feb. 1 - 23 for Bond Prices & Yields.

LONG TERM DOMESTIC GOVERNMENT

† February 23, 1939. * U.K. prices pegged Sept. 26-28 inclusive.

* Differing coupon rates and maturity provisions, and the fact that the U. S. Treasury issue is exempt from "normal" income tax, vitiate any direct comparison of absolute yield levels.

(1) Average of Dominion of Canada 3% due June 1, 1950-55 and 3½% due June 1, 1956-66.

(2) United Kingdom 3½% "War Loan" due Dec. 1, 1952 and after; price excluding accrued interest.

(3) U. S. Treasury 2½% due Mar. 15, 1955-60.

(4) On (or nearest to) 15th of each month. (5) Average Mar. 1 - 24 for Bond Prices and Yields.

LONG TERM DOMESTIC GOVERNMENT BOND YIELDS : CANADA, U.K. & U.S.A. : 1938 - 39

* See note above. (1) March 25. (2) March 24.

* The figures contained in this table differ from those previously published, particularly in the earlier years, because a different criterion is used for distinguishing between the Bank of Canada plus estimated changes in other foreign-owned gold held in Canada. (3) Valued monthly at market price in Canadian dollars, except in the case of earmarked and chartered banks until March 1935 and that of the Bank of Canada thereafter; all other items are classed as non-monetary. (5) A domestic gold purchase for Canadian is a percentage of the value of total merchandise exports, including non-monetary gold. † Preliminary.

non-monetary items (see notes 4 and 5). (1) Exports direct from mines, including all exports of ores, concentrates, dust, etc. (2) Changes in gold held under earmark at the value of \$35 per fine ounce. (4) Monetary exports or imports are those which decrease or increase Canadian monetary gold stocks, i.e. those of the Dominion Government. (5) Gold has been treated as the equivalent of (a) an export of non-monetary gold, and (b) an import of monetary gold. (6) Value of net exports of non-monetary gold expressed as

† Certain adjustments have been made in the published figures in order to place them on a comparable basis during the period under review. (a) As given in the Budget Speech for 1939/40. (c) Includes \$1 mm. non-active loan to C.P.R., made under Relief Act of 1932. (d) Relating to P.E.I. Car Ferry and Terminals, C.N. Steamships, Nat. Harbours Board, and Trans-Canada Air Lines. (h) The write-down includes \$18.5 mm. from Loans to Provinces re Relief. (k) From 1938 Cash an amount of \$9.0 mm., which was being held in suspense in connection with the London loan of 1st July, 1938, has been excluded. In the table on the following page a corresponding adjustment has been made in the case of All Other Liabilities. *No estimates available.

(*) Wage-earners are defined, in general, as persons who have worked for a wage or salary or who have had specific vocational training. Part-time workers are, with appropriate fractional weightings, included in both the employed and unemployed categories.

DIRECT RELIEF RECIPIENTS† (EXCLUDING DEPENDENTS)*: 1936-39

†See table on pages 61-2.

*Fully employable dependents, as given on page 62, are, however, included in the Fully Employable group as shown on this chart.

* In continuation of table on pages 42 and 43 of the March 1939 Summary. (1) Exports direct from mines, including all exports of ores, concentrates, dust, etc. (2) Changes in gold held under earmark at the Bank of Canada plus estimated changes in other foreign-owned gold held in Canada. (3) Valued monthly at market price in Canadian dollars, except in the case of earmarkings which are valued at \$35 per fine ounce. (4) Monetary exports or imports are those which decrease or increase Canadian monetary gold stocks, i.e. stocks of the Bank of Canada; all other items are classed as non-monetary. (5) A domestic gold purchase for Canadian monetary stock has been treated as the equivalent of (a) an export of non-monetary gold, and (b) an import of monetary gold. (6) Value of net exports of non-monetary gold expressed as a percentage of the value of total merchandise exports, including non-monetary gold. † Preliminary.

(1) Subject to revision. (2) Treasury Bills are excluded. For particulars of Dominion Treasury Bills see Heading IV. (3) C.N.R. bonds guaranteed by provinces are treated under the heading "Other C.N.R." (4) Includes retirements through sinking fund purchases. In many cases available data did not permit more than arbitrary approximations for separate portions of the fiscal year. (5) Three months Bills, payable in Canada only. (6) It was impossible to classify issues of municipalities and religious institutions totalling \$4.1 mm. in 1936, \$2.5 mm. in 1937, \$4.8 mm. in 1938 and \$2.7 mm. in the first half of 1939 between new and refunding. In each quarter such issues have been arbitrarily allocated in the same proportions as the known issues in the quarter. Because of lack of sufficient data no tabulation of retirements by municipalities and religious institutions was possible. (7) Includes \$48 mm. of C.P.R. bonds issued to refund Dominion guaranteed bank loans. \$12 mm. was delivered in the first quarter and \$36 mm. in the second quarter of 1936. (8) Issues of municipalities and religious institutions are not included in this tabulation owing to lack of sufficient information. (9) Including issues payable optionally in Canada or London. * The \$40 mm. Dominion issue due in New York on 1st Jan., 1939, which was refunded in New York in November, 1938 is for the purposes of this table taken as maturing in the last quarter of 1938. † Only or optionally.

(1) Treasury Bills are excluded. (2) Figures for the gross amount of bonds outstanding are compiled from latest official sources adjusted to 30th June, 1939, by subsequent known issues and redemptions; when full details regarding these become available minor revisions may be necessary. (3) Including issues payable in Canada or London, one issue payable in London or New York, and one issue payable in London or Paris. (4) Figures for guaranteed issues are approximate in some cases for which full particulars are not available. (5) The \$33.3 mm. of School Land Debenture Stock issued by the Dominion and held by Provinces is excluded. (6) C.N.R. issues guaranteed by the provinces, being included under the C.N.R. heading, are excluded from provincial headings.

(1) Direct Investments in enterprises abroad controlled by Canadian Companies or individuals. (2) Consists chiefly of portfolio investments of Canadian companies and individuals not included under other headings. (3) Foreign assets of Canadian insurance companies are not included in the foregoing tabulation, since as will be seen from this table, foreign assets (excluding Canadian assets payable in foreign currencies) reported to the Superintendent of Insurance are exceeded by liabilities to British and foreign policy holders etc. However, a large part of these investments consist of negotiable securities, the total amount of which is apt to change appreciably from time to time in a manner affecting the balance of payments. Hence although of a different type from other international investment, they deserve supplementary tabulation. (4) Includes petroleum and products. (5) Includes transportation and miscellaneous.

* In continuation of table on pages 42 and 43 of the March 1939 Summary. (1) Exports direct from mines, including all exports of ores, concentrates, dust, etc. (2) Changes in gold held under earmark at the Bank of Canada plus estimated changes in other foreign-owned gold held in Canada. (3) Valued monthly at market price in Canadian dollars, except in the case of earmarkings which are valued at \$35 per fine ounce. (4) Monetary exports or imports are those which decrease or increase Canadian monetary gold stocks, i.e. stocks of the Bank of Canada; all other items are classed as non-monetary. (5) A domestic gold purchase for Canadian monetary stock has been treated as the equivalent of (a) an export of non-monetary gold, and (b) an import of monetary gold. (6) Value of net exports of non-monetary gold expressed as a percentage of the value of total merchandise exports, including non-monetary gold. † Preliminary.

(1) Subject to revision. (2) Treasury Bills are excluded. For particulars of Dominion Treasury Bills see Heading IV. (3) C.N.R. bonds guaranteed by provinces are treated under the heading "Other C.N.R." (4) Includes retirements through sinking fund purchases. In many cases available data did not permit more than arbitrary approximations for separate portions of the fiscal year. (5) Three months Bills, payable in Canada only. (6) It was impossible to classify issues of municipalities and religious institutions totalling \$4.1 mm. in 1936, \$2.5 mm. in 1937, \$4.8 mm. in 1938 and \$3.6 mm. in the first nine months of 1939 between new and refunding. In each quarter such issues have been arbitrarily allocated in the same proportions as the known issues in the quarter. Because of lack of sufficient data no tabulation of retirements by municipalities and religious institutions was possible. (7) Includes \$48 mm. of C.P.R. bonds issued to refund Dominion guaranteed bank loans. \$12 mm. was delivered in the first quarter and \$36 mm. in the second quarter of 1936. *The \$40 mm. Dominion issue due in New York on 1st Jan. 1939, which was refunded in New York in November, 1938, is for purposes of this table taken as maturing in the last quarter of 1938.

† Persons in receipt of Material Aid (through Municipal or Provincial Governments) to which the Dominion Government contributed.

* Figures for Sept. 1939, which in some classifications are not exactly comparable with previous figures, are in all cases preliminary and subject to revision.

(1) New Brunswick is omitted as that Province was not distributing Urban Aid during the period shown in this table. (2) Including hotel, restaurant, capital and cleaning.

(3) Recreational, Governmental, etc. (4) Resident farm operators and their dependents are excluded from this tabulation. (5) Excluding agriculture, mining and logging.

(6) Persons between the ages of 16 and 29 years.
